

Which Glyphosates are best value?

WHEN comparing various Glyphosate products consider all the differences and advantages various products might have. The comparison below illustrates either 4Farmers Glyphosate 470 liquid or Glyphosate 875 granules are clearly good value for money.

4FARMERS GLYPHOSATE 470

A renowned proven performer in southern

with up to 150g/l geranol wetter which is usually ample product to ensure the best results in the field without adding further wetting agents. This saves another cost and makes it so convenient to use. Geranol wetter, in contrast to tallow amine wetter used in many other Glyphosate brands, also has the benefits of being friendlier to aquatic life and flows more easily in cold winter conditions.

4FARMERS GLYPHOSATE 875 GRANULES

The recently released 4Farmers Glyphosate 875 SG has received glowing reports to all that have so far used it and unanimously agreed the granules dissolve very easily. Using granules avoids all the hassle of drums that litter the farm, tie up money in drum charges and are a chore to return or dispose.

Glyphosate Type	Typical Broadcast Liquid Glyphosate	PowerMax®	4Farmers Glyphosate 470	4Farmers Glyphosate 875 WDG
Formulation	450g/l	540g/l	470g/l	875g/kg
