Comments

CARE: S7 POISON

Very dangerous. Poisonous if swallowed. Harmful if absorbed by skin contact. When opening the container and using the product wear cotton overalls buttoned to the neck and wrists and a washable hat, elbow length rubber gloves. If product on skin, immediately wash area with soap and water. If product in eyes, wash out immediately with water. If clothing becomes contaminated with product, remove clothing immediately. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use wash gloves and contaminated clothing.

FIRST AID

Speed in treatment is essential. If poisoning occurs, contact a doctor or Poisons Information Centre (Phone Australia 13 11 26). If skin contact occurs, remove contaminated clothing and wash skin thoroughly.

Remove from the contaminated area.

Apply artificial respiration if not breathing. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

SAFETY DATA SHEET

For further information please refer to the Safety Data Sheet. For a copy visit our website at www.4farmers.com.au

PERMITS

Use of 1080 and strychnine is restricted by law and confined to certain areas of the state.

Before using 1080 you need to complete appropriate training, ensure you comply with relevant Acts, Regulations and Legislation, and must apply for and obtain the appropriate permit(s) to purchase these chemicals. Visit <https://www.agric.wa.gov.au/1080/baiting-and-poison-permits> for full details
