

4Runner

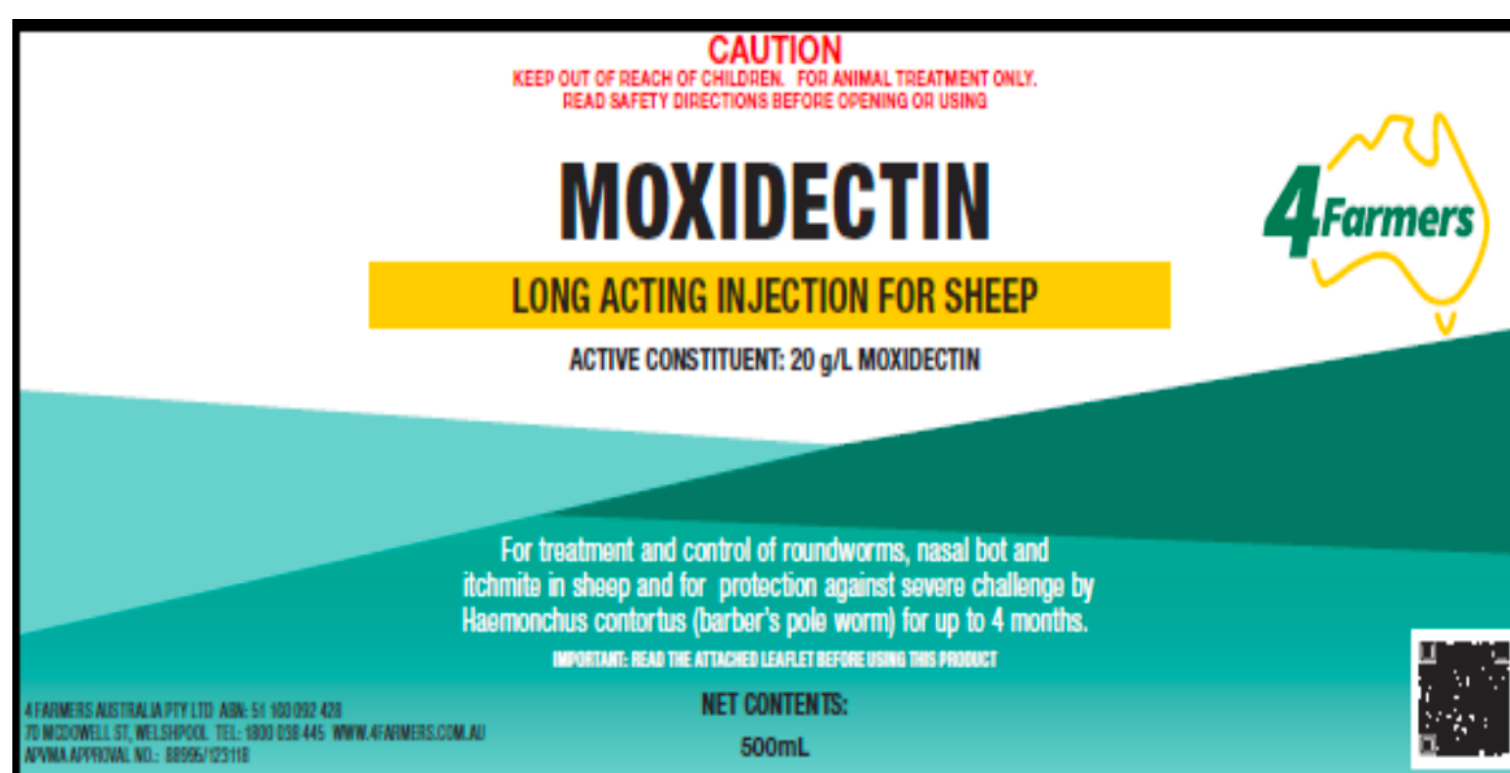

E-news on the farm chemical business.

5th of November, 2020

4FARMERS ARE PLEASE TO ANNOUNCE THAT WE ARE NOW ABLE TO SUPPLY MOXIDECTIN LONG ACTING INJECTION FOR SHEEP, SIMILAR TO CYDECTIN®.

- *Composition - 20g/L Moxidectin*

Moxidectin is the most potent member of the macrocyclic lactone (ML) family of drenches, meaning it can kill worms resistant to ivermectin and abamectin.

Moxidectin is a second generation macrocyclic lactone (ML) and is effective against sensitive strains of the parasites listed below and provides protection against barber's pole worm for up to 4 months.

Barber's pole worm	Nasal bot
Black scour worm	Nodule worm
Intestinal threadworm	Small brown stomach worm
Itchmite	Small intestinal worm
Large bowel worm	Stomach hairworm
Large lungworm	Thin necked intestinal worm
Large mouthed bowel worm	Whipworm

4FARMERS OFFER QUALITY PRODUCT AT THE BEST PRICE.

4farmers Moxidectin is manufactured in an Australian, APVMA certified manufacturing facility to the highest standard.

Bodyweight (kg)	Recommended Dose (mL)	Animals Treated with 1 Pack (500ml)	Market Cost per Dose	4Farmers Cost per Dose	Saving per 100 sheep
20	1	500	\$0.45	\$0.36	\$8.50
21-30	1.5	333	\$0.67	\$0.54	\$12.75
31-40	2	250	\$0.89	\$0.72	\$17.00
41-50	2.5	200	\$1.11	\$0.90	\$21.25
51-60	3	167	\$1.34	\$1.08	\$25.50
61-70	3.5	143	\$1.56	\$1.26	\$29.75
71-80	4	125	\$1.78	\$1.44	\$34.00
